World-Office Visual Gate

A representative document for the honest visual parity gate: text flow, styling, and structure.

Paragraph 1 with *mixed* inline styling and a sentence long enough to force real line wrapping across the page width, testing both engines identically.

Paragraph 2 with *mixed* inline styling and a sentence long enough to force real line wrapping across the page width, testing both engines identically.

Paragraph 3 with *mixed* inline styling and a sentence long enough to force real line wrapping across the page width, testing both engines identically.
